GLOBAL COLLABORATION
CONNECT

It lies behind every good and noble deed.

It is core to our creativity and resourcefulness.

It is the gateway to spirituality, enlightenment and higher purpose.

It is the prerequisite for love, empathy and compassion that heals wounds and division, and unifies us towards reaching our shared aspirations for the highest good.

It is the first step onto the path of boundless discovery, ever-expanding consciousness and unimaginable fulfillment.

The word CONNECT describes the most powerful action a human being can take.
Our survival as a species and the halting of the destruction of our planet may well be determined by how well we can harness our inbuilt yet underutilized abilities to CONNECT.

Science is beginning to understand its mysteries and complexities. Quantum physics and brain science are opening new realities.

Connect with Self...Connect with Others...Connect with the Universe...have the capacity to elevate human behavior, and usher in a new era greater than the Renaissance or the Enlightenment.
GLOBAL COLLABORATION

Around the world, led by new brain science, thousands and thousands of organizations are awakening. There is a new energy seeking to multiply self-improvement, self-empowerment, compassion, love and change the world.

Connect leaders can collaborate. Join hands and hearts. Each Connect Leader will have their own wording and like-minded/shared vision. They will have their own followers, marketing capacity and budgets.

Go beyond silos. Start slow and build. Begin with two collaborating organizations. Grow to 10. Then 100. Then 1,000. Then 10,000’s.
IN ONE GENERATION

15 TO 20 YEARS – WE CAN IMPACT ONE BILLION NEW CONNECT PEOPLE AND CHANGE THE WORLD.

2.

Each CONNECT LEADER will energize and enlist NEW CONNECT PRACTITIONERS.
Again, start slow and build. Enlist 1,000 new people opening to CONNECT.
Then 20,000.
Then 500,000.
Then 10 Million.
Then One Billion.
